

Community Health Needs Assessment Implementation Plan

Board review: April 27, 2022

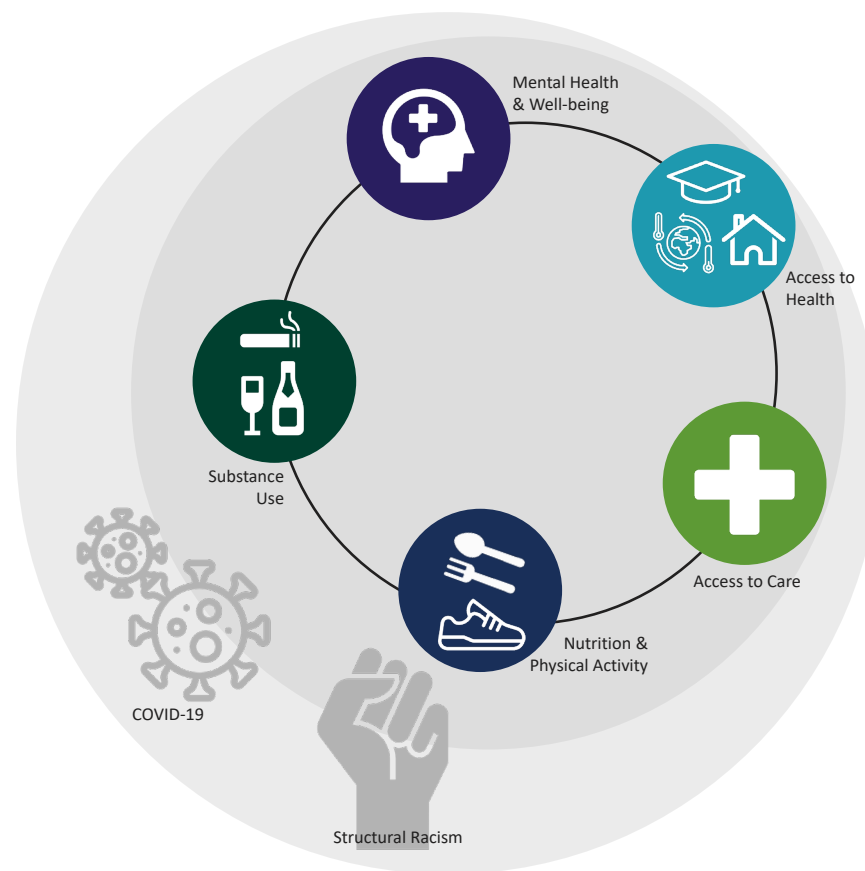

HealthPartners 2022 CHNA Implementation Plan

The purpose of this Community Health Needs Assessment (CHNA) Implementation Plan is to describe how Lakeview Hospital plans to address each of the 5 needs areas identified through the 2021 CHNA process. The needs areas identified in the most recent CHNA are shown on the graphic to the right, and include the following:

- Mental Health and Well-being
- Access to Health
- Access to Care
- Nutrition and Physical Activity
- Substance Use

Woven throughout each of these Needs Areas are two cross-cutting contextual factors: structural racism and the COVID-19 pandemic.

Over the next three years (2022-2024), our hospital intends to address all five top significant health needs areas in some way. Below we outline strategies and actions set by Lakeview Hospital to address each needs area, hospital resources that will be committed, partners and anticipated impact towards each goal.

Goal: Improve Mental Health & Well-being

Mental Health and Well-being is the interconnection between mental illness and the associated stigma, social connectedness, resiliency, and overall mental, social, and emotional well-being.

Strategies/action	Anticipated Impact	Hospital Resources	Partners
<p>Make It OK Community campaign to reduce the stigma of mental health and illness through:</p> <ul style="list-style-type: none"> • Website and social media • Toolkits and resources • Community outreach and Ambassador Training • Community collaborations 	<ul style="list-style-type: none"> • Increased awareness and knowledge of mental health and illness stigma in communities, schools, employers, community agencies, faith communities and through other partners. • Expanded engagement and reach in those more reluctant to seek care, vulnerable communities and communities of color • Reduction in stigmatized attitudes and actions, to create more caring communities. 	<ul style="list-style-type: none"> • Staff for program support and subject matter expertise, steering committee participation, program evaluation and partnership development • HealthPartners supports makeitok.org development and maintenance • Support from the Lakeview Health Foundation 	<p>The Make It Ok initiative collaborates and partners with more than 30 Steering Committee members and partners including the National Alliance for Mental Illness (NAMI), hospitals and health care, East Metro Mental Health Roundtable, Teen Leadership Council, local public health, community agencies, mental health providers, employers and Washington County Public Health. The ongoing partner list can be found at www.makeitok.org</p>
<p>Mental Health Community Collaborations Actively participate in community collaborations to make equitable progress with mental health and well-being.</p>	<ul style="list-style-type: none"> • Strengthen and support community partnerships and collective action • Collaborate to make equitable progress toward improving community mental health and well-being 	<ul style="list-style-type: none"> • Participate in and support collective efforts 	<p>Partners include:</p> <ul style="list-style-type: none"> • Washington County CONNECT • Washington County Public Health and Environment • The WellSpring Project • Center for Community Health • National Alliance for Mental Illness (NAMI) • Faith communities • Community Health Action Team (CHAT)

<p>Little Moments Count</p> <p>Community coalition to help parents and the community understand the importance of talking, playing, reading and singing early and often with children.</p>	<ul style="list-style-type: none"> • Increase positive interactions and experiences in early childhood • Positively impact health and well-being outcomes later in life. 	<ul style="list-style-type: none"> • Staff for program support, subject matter expertise, steering committee and partnership • HealthPartners supports Littlemomentscount.org website development and maintenance 	<p>LMC is a collaborative of 57 organizations working to help increase parent and community interaction with babies and children including. See partner list at www.littlemomentscount.org/about-us</p>
<p>Behavioral Health Services</p> <p>Integration of behavioral health into primary care, hospital inpatient and outpatient care, including assessment and intervention models.</p>	<ul style="list-style-type: none"> • Improved experiences and reduced barriers for patients • Simplified and alignment of triage, intake, and scheduling across the care system. • Improved provider communication, care management and coordination • Expanded access to mental health services 	<ul style="list-style-type: none"> • Core internal work • Staff, systems and support 	<p>Partners include:</p> <ul style="list-style-type: none"> • County Health Departments • Wisconsin Hospital Association – Mental Health Service Providers
<p>Behavioral Health Crisis Services - Crisis Immediate Access (CIA)</p> <p>Behavioral health telemedicine outpatient service, providing immediate mental health and crisis assessment via tele-video for all HealthPartners patients.</p>	<ul style="list-style-type: none"> • Improved access to mental health care • Expanded access to mental health services • Deferral of hospital ED crisis cases 	<ul style="list-style-type: none"> • Staff for program coordination, support and care delivery; subject matter expertise • Clinic and ambulatory care staff • Participate in and support collective efforts 	<p>Partners include:</p> <ul style="list-style-type: none"> • County Health Departments • Wisconsin Hospital Association – Mental Health Service Providers
<p>Emergency Behavioral Health Tele-video Services Collaboration</p> <p>Public-private partnership between area health systems and counties to provide behavioral health assessment and referral for Emergency Department patients.</p>	<ul style="list-style-type: none"> • Simplified and improved experiences and reduced barriers for patients 	<ul style="list-style-type: none"> • Staff for program coordination, support and care delivery; subject matter expertise • Participate in and support collective efforts • Support from the Lakeview Health Foundation 	<p>Partners include:</p> <ul style="list-style-type: none"> • Wisconsin Department of Health Services (DHS) • Lakeview Hospital • Hudson Hospital • Westfields Hospital • Amery Hospital • Western Wisconsin Health • St. Croix Regional Medical Center • Osceola Medical Center • River Falls Area Hospital • Polk County Public Health • St. Croix County Public Health

			<ul style="list-style-type: none"> • Pierce County Public Health • Local law enforcement
<p>Faith Community Nursing</p> <p>Faith Community Nurses provide whole-person care with a focus on the intentional care of the spirit within individuals, families, and their communities by serving local congregations. Faith Community Nurses support clients' mental health and wellbeing by providing or promoting support groups, dementia and memory screenings, individual and group education, and connecting clients to medical care and community resources</p>	<ul style="list-style-type: none"> • Support and improve mental health and well-being for community members 	<ul style="list-style-type: none"> • Staff and systems to support program • Support from Lakeview Health Foundation 	<p>Partners include:</p> <ul style="list-style-type: none"> • 9 faith communities in the St. Croix Valley including: Trinity Lutheran, St. Paul Lutheran Church, First Presbyterian, Rockpoint, Church of St. Michael, Our Savior's Lutheran Church, St. Andrew's Lutheran • Faith community nurse network • Community agencies
<p>Be Well-An employee well-being program for HealthPartners staff colleague well-being including mental health, well-being and resiliency programs and services.</p>	<ul style="list-style-type: none"> • Improved emotional well-being and resiliency of hospital and clinic staff • Maintain strong health care workforce 	<ul style="list-style-type: none"> • Hospital coordinates, promotes, connects staff with programs and resources and provides incentives for participation 	<p>Partners include:</p> <ul style="list-style-type: none"> • Employee Assistance Program • Be Well program partners • Local agencies

Goal: Improve Access to Health

Access to Health refers to the social and environmental conditions and unmet social needs that directly and indirectly affect people’s health and well-being such as housing, income, food security, transportation, employment, education, clean and sustainable environment, and more.

Strategies/action	Anticipated Impact	Hospital Resources	Partners
<p>Social Drivers of Health screening and referral (SDOH) A system-wide approach to addressing social determinants of health through screening, systems, community partnerships and referral</p>	<ul style="list-style-type: none"> • Patients’ social needs are identified and addressed • Community partners and resources are engaged and accessible 	<ul style="list-style-type: none"> • Core internal work • Staff, systems and support 	<p>Partners include:</p> <ul style="list-style-type: none"> • Community agencies (Hunger Solutions, STEP, local food shelves) • NowPow/Unite Us
<p>SuperShelf Collaborative initiative to transform food shelves by making healthy, culturally specific foods accessible and appealing</p>	<ul style="list-style-type: none"> • Increased nutritional quality of food available to clients • Increased availability of culturally specific foods • Equitable and client-focused atmosphere at food shelves 	<ul style="list-style-type: none"> • Staff for program support and implementation; subject matter expertise • Participate in and support collective efforts • Resources for food shelf transformations • Support from the Lakeview Health Foundation 	<p>Partners include:</p> <ul style="list-style-type: none"> • Valley Outreach • The Food Group • University of Minnesota • Hunger Solutions Minnesota • Other partners and participating food shelves at www.supershelfmn.org
<p>Sustainability HealthPartners supports and promotes sustainability through the lens of the triple bottom-line of people, planet, and prosperity. Where environmental health is in balance with both human and economic health and well-being for all members of our community.</p>	<ul style="list-style-type: none"> • Impacts will include improved air and water quality, more predictable temperatures, and improved quality of life. 	<ul style="list-style-type: none"> • Led by our Sustainability team • Supported by hospital green teams • Lakeview Hospital operates and supports local farmer’s market 	<p>Partners include:</p> <ul style="list-style-type: none"> • Local public health • Grassroots organizations • Farmers, farmer’s markets, recyclers and others
<p>Community Health Collaborations Actively participate in community collaborations to make equitable progress with social drivers of health including food insecurity</p>	<ul style="list-style-type: none"> • Strengthen and support community partnerships and collective action • Collaborate to make equitable progress toward improving 	<ul style="list-style-type: none"> • Staff, partner, participate and support collective efforts • Volunteer support from hospital and clinic employees. • Support from the Lakeview Health Foundation 	<p>Partners include:</p> <ul style="list-style-type: none"> • Teen Leadership Council • Center for Community Health • SuperShelf • Washington County Public Health & Environment

	<p>community social drivers of health</p> <ul style="list-style-type: none"> • Increase community access to food and other basic needs 		<ul style="list-style-type: none"> • Valley Outreach partnership • Washington County Community Leadership Team (SHIP) • Washington County public health and community services • Community Health Action Team (CHAT) • Local Chambers of Commerce • Local school districts
<p>Transportation options</p> <p>Collaborations to explore ways to increase access to transportation options and provide the best, most safe, appropriate and member-focused experience for older adults, people with disabilities and those lacking reliable transportation.</p>	<ul style="list-style-type: none"> • Community members will be aware of and better connected to reliable transportation options • Increased awareness of medical transportation options 	<ul style="list-style-type: none"> • Participate in and support collective efforts • Support from the Lakeview Health Foundation 	<p>Partners include:</p> <ul style="list-style-type: none"> • Community Thread • Washington County One-Stop • Stillwater Bus Loop Advisory • HealthPartners Transportation member services • Community agencies • Local public health
<p>Faith Community Nursing</p> <p>The St. Croix Valley Faith Community Nurses provide whole-person care with a focus on the intentional care of the spirit within individuals, families, and their communities by serving local congregations. Faith Community Nurses support clients through assessment and referral to community resources including transportation, food shelves, meal delivery, technology assistance, prescription assistance, and more.</p>	<ul style="list-style-type: none"> • Support and improve health and well-being for community members • Social needs are identified and people connected to community resources 	<ul style="list-style-type: none"> • Staff for program coordination, support and care delivery • With support from Lakeview Health Foundation 	<p>Partners include:</p> <ul style="list-style-type: none"> • 9 faith communities in the St. Croix Valley including: Trinity Lutheran, St. Paul Lutheran Church, First Presbyterian, Rockpoint, Church of St. Michael, Our Savior's Lutheran Church, St. Andrew's Lutheran • Community agencies including food shelves, social services, and local county resources • Faith community nurse network

Goal: Improve Access to Care

Access to Care means having equitable access to appropriate, convenient, affordable and culturally responsive, trauma informed health care. This includes factors such as proximity to care, diversity training for staff, diverse backgrounds of providers, cost of care, insurance coverage, medical transportation, and care coordination within the health care system.

Strategies/action	Anticipated Impact	Hospital Resources	Partners
<p>Build an anti-racist culture through training, employee engagement and equitable policies and practices</p>	<ul style="list-style-type: none"> • Deepen our workforce’s collective understanding of bias, racism and cultural humility as we build trust with community. 	<ul style="list-style-type: none"> • Diversity and Inclusion teams, human resources and hospital leadership • Staff, systems and support; core internal work • Valley Health Equity Committee 	<p>Partners include:</p> <ul style="list-style-type: none"> • Penumbra Theater • YWCA • Center for Economic Inclusion • Local public health • Community agencies
<p>Address disparities in care Accelerate and expand our efforts to eliminate disparities in chronic conditions, preventive screenings, maternal and infant care and childhood immunizations and others. This work is done with a focus on health equity, identifying patient disparities including factors such as race, socioeconomic, gender and other factors.</p>	<ul style="list-style-type: none"> • Improved access to care • Reduced disparities in care 	<ul style="list-style-type: none"> • Staff, systems and support; core internal work • Performance Improvement projects • Valley Health Equity Committee 	<p>Partners include:</p> <ul style="list-style-type: none"> • Community agencies • Integrated Care for High-Risk Pregnancies Initiative • Minnesota Council of Health Plans • Local public health
<p>Clinical Performance Improvement Improve Coordination of Care within our system and outside partners to improve care efficiency and quality</p>	<ul style="list-style-type: none"> • Improved access to care • Improved Care Coordination and Quality Outcomes 	<ul style="list-style-type: none"> • Staff systems and support; core internal work • Performance improvement projects 	<p>Partners include</p> <ul style="list-style-type: none"> • Community Paramedics • Transitional Care Units • Healthcare Plans • Homecare and Hospice
<p>Leverage Technology for Seamless Care Expand the use of technology (telemedicine, emails, text messages, MyChart messages, etc.)</p>	<ul style="list-style-type: none"> • Increased access to care 	<ul style="list-style-type: none"> • Internal resources and systems 	<p>Partners include:</p> <ul style="list-style-type: none"> • EPIC • Google

to engage patients between visits and promote healthy behaviors			
<p>Prescription Assistance Program</p> <p>The Prescription Assistance Program (PAP) facilitates access to essential medications for free or at greatly reduced costs to low-income, uninsured and/or underinsured patients. This free, comprehensive service assists patients with qualification identification and enrollment in established pharmaceutical prescription assistance programs and/or with copayment assistance, as available.</p> <p>Most recently we have decided to include durable medical equipment as well.</p>	<ul style="list-style-type: none"> • Improved access to care • More patients are able to maintain their prescribed medication regimens, which improves their overall health • Patients are better equipped to manage and balance their overall health and finances 	<ul style="list-style-type: none"> • Staff coordinator • Support from Lakeview Health Foundation 	<p>Partners include:</p> <ul style="list-style-type: none"> • Pharmaceutical companies • Community agencies
<p>Access to Care Community Collaborations</p> <p>Actively participate in community collaborations to make equitable progress with access to care.</p>	<ul style="list-style-type: none"> • Strengthen and support community partnerships and collective action • Collaborate to make equitable progress toward improving access to care 	<ul style="list-style-type: none"> • Participate in and support collective efforts • Hospital support of local agencies • Patient Advisory Council coordination 	<p>Partners include:</p> <ul style="list-style-type: none"> • Patient Advisory Councils • Local public health and community services • Community agencies • Community Health Workers • Community Health Action Team (CHAT)
<p>Community Health Education</p> <p>Community health education classes and opportunities are offered to in the St. Croix Valley at low-cost or without charge.</p>	<ul style="list-style-type: none"> • Community members will learn about health and wellbeing and various medical conditions, learn skills to support their health and wellbeing, and learn about services at our hospitals and clinics. 	<ul style="list-style-type: none"> • Staff for program coordination • Health professional subject matter experts in chronic disease prevention and management, joint health, sleep, mental health, pulmonary health and health promotion. 	<p>Partners include:</p> <ul style="list-style-type: none"> • Health care providers • Topic-specific instructors • Community agencies
<p>Diabetes Education</p> <p>High quality diabetes education program for patients and families, including standardized processes and educational materials. Diabetes Prevention classes.</p>	<ul style="list-style-type: none"> • Improve quality of life and reduce complications from diabetes • Improve access to diabetes care 	<ul style="list-style-type: none"> • Core internal work • Staff for program coordination, support and care delivery; subject matter expertise 	<p>Partners include:</p> <ul style="list-style-type: none"> • Community agencies • Centers for Disease Control

		<ul style="list-style-type: none"> • Lakeview Health Foundation support for patient grant program 	
<p>Injury Prevention & Community Outreach Outreach and education to prevent and reduce injuries including:</p> <ul style="list-style-type: none"> ○ Child passenger safety & car seat service ○ Pedestrian and bicycle safety ○ Helmet safety ○ Water safety ○ First aid, CPR, and Stop the Bleed 	<ul style="list-style-type: none"> • Prevent and reduce injury • Increase and/or improve community awareness and knowledge of injury reduction and prevention 	<ul style="list-style-type: none"> • Staff for program coordination, support and implementation; subject matter expertise • Participate in and support collective efforts 	<p>Partners include:</p> <ul style="list-style-type: none"> • Local public health • Local fire or police departments • Local safety councils • Local parks and recreation • Local schools
<p>Emergency Medical Services Safety planning and standby for events; education and awareness</p>	<ul style="list-style-type: none"> • Reduce response time to injuries • Improve community knowledge and awareness of distracted driving and driving under the influence 	<ul style="list-style-type: none"> • Staff for program support and subject matter expertise • Participate in and support collective efforts 	<p>Partners include:</p> <ul style="list-style-type: none"> • Local public health and community services • Local fire or police departments • Local schools
<p>Workforce Recruitment and Retention Strategies Focused effort to increase awareness and engagement in health care employment opportunities, with a focus on entry-level and technical positions and reaching diverse talent. This strategy includes:</p> <ul style="list-style-type: none"> • Training and internship opportunities in hospitals and clinics • Scholarships for training and tuition assistance for career advancement • Collaboration with health care and schools • Increased visibility of employment opportunities in diverse populations • Enhanced onboarding processes, preceptors and relationship-building 	<ul style="list-style-type: none"> • Increased awareness of health care jobs and training opportunities to diverse candidates • Reduced financial barriers to training and career advancement • Increased retention of talent 	<ul style="list-style-type: none"> • Hospital and clinic leadership • Human resources leaders • Valley Health Equity Committee • Support from Lakeview Health Foundation 	<p>Partners include:</p> <ul style="list-style-type: none"> • Specific software (CIRCA) recruiting job board focused on diverse applicants • Consortium of regional hospitals, clinics, technical schools and high schools
<p>Patient Emergency Fund Provide emergency financial assistance for patients based on need for prescription costs,</p>	<ul style="list-style-type: none"> • Reduced barriers to accessing care 	<ul style="list-style-type: none"> • Staff support to help patients navigate financial assistance • Support from the Lakeview Health Foundation 	<p>Partners include:</p> <ul style="list-style-type: none"> • Donors • Community agencies

medical equipment, transportation cost and other essential needs.			
Community Paramedicine Follow-up home visits for post-hospital discharge for congestive heart failure	<ul style="list-style-type: none"> • Reduce readmissions • Keeping people in their home, out of the hospital 	<ul style="list-style-type: none"> • Core internal work • Staff for program coordination, support and implementation; subject matter expertise • Participate in and support collective efforts 	Partners include: <ul style="list-style-type: none"> • Community agencies • Local law enforcement and fire • Local fire departments
Faith Community Nursing The St. Croix Valley Faith Community Nurses provide whole-person care with a focus on the intentional care of the spirit within individuals, families, and their communities by serving local congregations. Faith community nurses provide health screenings, connect community members to clinical care and add health resources	<ul style="list-style-type: none"> • Support and improve health and well-being for community members • Health care issues identified through screening and referral to resources 	<ul style="list-style-type: none"> • Staff for program management, supervision, coordination, support and care delivery • With support from Lakeview Health Foundation 	Partners include: <ul style="list-style-type: none"> • 9 faith communities in the St. Croix Valley including: Trinity Lutheran, St. Paul Lutheran Church, First Presbyterian, Rockpoint, Church of St. Michael, Our Savior’s Lutheran Church, St. Andrew’s Lutheran • Foot care nurses • Community agencies • Homecare & hospice
Children’s Health Initiative HealthPartners is working to improve the health and well-being of children and their families by concentrating on: Promoting early brain development, providing family centered care and strengthening our communities. Areas of focus include: <ul style="list-style-type: none"> • Healthy Beginnings: Promote drug, alcohol and tobacco-free pregnancies by universally screening all pregnant women and offering non-judgmental support; identify other needs (socioeconomic, etc) • Little Moments Count • Breastfeeding promotion and support • Postpartum depression screening 	<ul style="list-style-type: none"> • Improve the health of children in early childhood • Improve the health of mothers during and after pregnancy and delivery 	<ul style="list-style-type: none"> • Staff, systems and support 	Partners include: <ul style="list-style-type: none"> • Integrated Care for High-Risk Pregnancies Initiative • Ramsey County WIC and SNAP • Minnesota Breastfeeding Coalition • Reach Out and Read • Little Moments Count • CollegeBound St. Paul • Heart of the Customer • Teen Leadership Council • Local county public health and community services
Senior Care Service Line	<ul style="list-style-type: none"> • Reduce readmissions 	<ul style="list-style-type: none"> • Core internal work 	Partners include: <ul style="list-style-type: none"> • Community agencies

Home-based medicine by physician or advanced practice provider for adults experiencing difficulty navigating the traditional care model.	<ul style="list-style-type: none"> • Keeping people in their home, out of the hospital • Improved experiences and reduced barriers for patients 	<ul style="list-style-type: none"> • Staff for program coordination, support and care delivery; subject matter expertise 	
Homecare, Palliative Care & Hospice Provides in-home care to seriously ill patients, and supports them and their caregivers.	<ul style="list-style-type: none"> • Reduce readmissions • Keeping people in their home, out of the hospital • Improved experiences and reduced barriers for patients 	<ul style="list-style-type: none"> • Core internal work • Staff for program coordination, support and implementation; subject matter expertise 	Partners include: <ul style="list-style-type: none"> • Clinics, skilled nursing facilities, assisted living
Hospital@Home Provides hospital-level care for acutely ill patients in their home in lieu of emergency room transfer or hospitalization.	<ul style="list-style-type: none"> • Reduce readmissions • Keeping people in their home, out of the hospital • Improved experiences and reduced barriers for patients 	<ul style="list-style-type: none"> • Core internal work • Staff for program coordination, support and implementation; subject matter expertise 	Partners include: <ul style="list-style-type: none"> • Community agencies • Local fire departments
Community Falls Prevention Programs Stepping On, Tai Qi Quan and Moving for Better Balance are evidence-based programs to reduce falls and improve wellbeing for older adults.	<ul style="list-style-type: none"> • Reduced incidence of falls in our community • Older adults are healthier and more independent 	<ul style="list-style-type: none"> • Hospital rehab and faith community nursing staff • Program promotion • Community partnership 	Partners include: <ul style="list-style-type: none"> • Community agencies • Courage Kenny Stillwater • Faith Community nursing
Health and Wellbeing Programs for Older Adults Education for older adults to learn about their chronic condition, and how an active lifestyle can help with management of their chronic conditions (Walk with Ease, Living Well with Chronic Conditions)	<ul style="list-style-type: none"> • Older adults are healthier and more independent • Chronic disease self-management improves 	<ul style="list-style-type: none"> • Staff for program coordination, support and implementation; subject matter expertise 	Partners include: <ul style="list-style-type: none"> • Faith Community Nursing • Minnesota Area Agency on Aging

Goal: Improve Nutrition & Physical Activity

Nutrition & Physical Activity means equitable access to nutrition, physical activity and healthy supportive environments for families and communities.

Strategies/action	Anticipated Impact	Hospital Resources	Partners
<p>PowerUp Community-wide initiative to support eating better, moving more and feeling good. Resources include:</p> <ul style="list-style-type: none"> • School Challenge and teacher resources • Classes for cooking and sports nutrition • Community options for physical activity • Family magazines, online resources and recipes 	<ul style="list-style-type: none"> • Increased awareness about resources for eating better, moving more and feeling good • Improved attitudes and behaviors around eating, physical activity and mental well-being 	<ul style="list-style-type: none"> • Staff for program development and subject matter expertise, steering committee, program evaluation and partnership development • Development and maintenance of powerup4kids.org and program resources • Support from the Lakeview Health Foundation 	<p>Partners include:</p> <ul style="list-style-type: none"> • School districts including: Stillwater, Mahtomedi • Youth leaders • School Age Care programs • Community agencies and food pantries • Local public health • Faith communities • YMCA Adventure Lab and Unlock It • Community Health Action Team (CHAT)
