

CURRICULUM VITAE FOR PROMOTION AND TENURE

PAULA K. SKARDA

PROFESSIONAL ADDRESS

2635 University Avenue West
Suite 160
St. Paul, MN 55114
Office phone: 651-254-2175
Email: paula.k.skarda@healthpartners.com

IDENTIFYING INFORMATION

Education and Training

Degree	Institution	Date Degree Granted
B.S.	University of Minnesota, Minneapolis, MN Biochemistry	1989
M.D.	University of Minnesota, Minneapolis, MN	1993
Internship and Residency in Internal Medicine/Pediatrics	University of Minnesota, Minneapolis, MN	1993-1997

Certifications, Licenses

Diplomate of the American Board of Pediatrics	1999-present
Diplomate of the American Board of Internal Medicine	1998-present
Minnesota State Medical License (#38484)	1997-present
DEA Registration Certificate (#BS4806305)	1997-present
BLS/ACLS	1997-present
Lean Six Sigma Yellow Belt Certification	2019-present

Academic Appointments

University of Minnesota, Twin Cities Campus, Department of Medicine Adjunct Assistant Professor	2001-present
--	--------------

Academic Administrative Appointments

Associate Program Director (0.55 FTE) Internal Medicine Residency Program Regions Hospital	2014-present
Director Regions Equitable Approachable Community Health (REACH) Longitudinal Integrated Clerkship	2017-present
Core Faculty, University of Minnesota	2000-present

Internal Medicine Residency Program Regions Hospital	
Rotation Director Adult Health Care Clinic	2000-present
Rotation Director Geriatrics	2015-present
Instructor, Simplifying Precepting HealthPartners Medical Group	2018-present

Clinical/Hospital Appointments

Hospitalist, Regions Hospital	1997-present
Primary Care Physician and Resident Preceptor HealthPartners Medical Group	1997-present
Member, Foundation Board Executive Committee Regions Hospital	2016
Member, Graduate Medical Executive Committee Regions Hospital	2014-present
Regional Assistant Medical Director Specialty Care Division, HealthPartners	2005-2014
Member, Congestive Heart Failure Committee Regions Hospital	2013-present
Chief of Staff Emeritus, Regions Hospital	2010-2011
Chair, Peer Review Regions Hospital	2010-2012
Member, Regions Hospital Imaging Council	2010-2012
Member, Regions Hospital Board Foundation	2010-2016
Chief of Staff, Regions Hospital	2008-2009
Chair, Medical Executive Committee Regions Hospital	2008-2009
Member, Regions Hospital Board	2008-2009
Member, Best Care Best Experience Regions Hospital	2008-2009
Member, Access and Flow Regions Hospital	2008-2009
Member, Expansion 2009 Regions Hospital	2008-2009
Member, Quality Peer Review Regions Hospital	2006-2012
Member, Regions Hospital Board Quality	2006-2008
Chief of Staff Elect, Regions Hospital	2006-2007
Chair, Patient Care Committee Regions Hospital	2006-2007
Chief of Professional Services, Adults and Seniors Health	2005-2008

Division Head, Primary Care Regions Hospital	2000-2005
Chief of Professional Services Midway Clinic	2000-2005
Chair, Medical Records Committee	2000-2006

Current Membership and Offices in Professional Organizations

Association of Program Directors in Internal Medicine	2014-present
American College of Physicians	2018-present
American Medical Association	2019-present
Society of Hospital Medicine	2020-present

HONORS AND AWARDS FOR RESEARCH WORK, TEACHING, PUBLIC ENGAGEMENT, AND SERVICE

University of Minnesota

Department of Medicine Outstanding Teacher Award, Regions Hospital	2012
Department of Medicine Outstanding Teacher Award, Regions Hospital	2005

RESEARCH AND SCHOLARSHIP

Grants and Contracts

External Sources

Current

Role: Co-investigator
 Granting Agency: Red Fund, Regions Quality Improvement Grant
 Grant Title: A Video Study of Nursing Perception of Physician Performance in a Critical Care Setting
 Project Dates: July 1, 2019-present
 Total Cost: \$14,957
 Effort: 0% (in kind)

Role: Co-investigator
 Granting Agency: HealthPartners Institute
 Grant Title: Gout SIRS
 Project Dates: 2019 - 2020
 Total Cost: 10.000
 Effort: 0% (in kind)

Past

Role: Principal Investigator
 Granting Agency: Red Fund, Regions Quality Improvement Grant
 Grant Title: Defining the True Costs of Teaching

Project Dates: July 1, 2018-August 13, 2019

Total Cost: \$21,562

Effort: 0% (in kind)

Role: Principal Investigator

Granting Agency: Red Fund, Regions Quality Improvement Grant

Grant Title: HIV Screening Using EMR Alerts For At-Risk Populations

Project Dates: January 1, 2017-January 31, 2019

Total Cost: \$5,000

Effort: 0% (in kind)

Role: Principal Investigator

Grant Agency: Red Fund, Regions Hospital Quality Improvement Grant

Grant Title: EMR Health Maintenance Impacts on HIV and Hepatitis C in the Outpatient Setting

Project Dates: January 1, 2017-August 7, 2018

Total Cost: \$15,000

Effort: 0% (in kind)

Role: Principal Investigator

Grant Agency: Red Fund, Regions Quality Improvement Grant

Grant Title: The Effects of Electronic Medical Record Display on Provider Ordering Behavior: Leveraging the EMR to Improve Quality and Costs

Project Dates: January 1, 2017-February 5, 2018

Total Cost: \$5,000

Effort: 0% (in kind)

Role: Co-Investigator

Grant Agency: Red Fund, Regions Hospital Quality Improvement Grant

Grant Title: QI Center for Excellence in Quality Improvement Education and Research for Internal Medicine

Project Dates: November 1, 2014-September 30, 2016

Total Cost: \$50,000

Effort: 0% (in kind)

Other Key Activities and Accomplishments

TEACHING AND CURRICULUM DEVELOPMENT

University of Minnesota

Course/Lecture List

Adult Health Care Clinic

Course Director, Adult Health Care Clinic	2000-present
Facilitator, Journal Club (weekly)	2006-present
Facilitator, Mock RCA (monthly)	2014-2018

Case discussion facilitator, In the Clinic (weekly)	2006-2016
Case discussion facilitator, Patient Care Conference (weekly)	1997-2016

Graduate Medical Education

Facilitator, Clinic Case Conference: Lead case-based discussion for 3-4 residents During weekly continuity clinic (twice monthly)	2012-present
Intern-to-Senior Resident Transition Annual Workshop. Teach interactive sessions on how to function as a senior resident to end-of-year interns (40 residents/session)	2018-2019
Facilitate Food Insecurity Project for residents (5-8 residents monthly)	2015-2018
Facilitate nutrition modules for residents (5-8 residents monthly)	2015-2018
Lecturer, "Root Cause Analysis" (monthly to 5-8 residents)	2014-present
Lecturer, "Failure Mode Analysis and Design" (monthly to 5-8 residents)	2014-2018
Lecturer, "Jeopardy-Governing Bodies of Healthcare" (monthly to 5-8 residents)	2014-2018
Lecturer, "Quality Improvement" (monthly to 5-8 residents)	2015-2017
Lecturer, "Common Ophthalmologic Disorders in Primary Care" (monthly to 5-8 residents)	2010-2016
Lecturer, "Hepatitis" (monthly)	2010-2016
Quality Improvement Curriculum.	2006-2016.

Undergraduate Medical Education

Principles of Clinical Care, University of Minnesota Medical School	2019-present
Seminar facilitator, Thriving in the Culture of Medicine, Becoming a Doctor Course	August 2018
Lecturer and facilitator, "Quality Improvement Basics" (bi-annually)	2018-present
Lecturer, "The Impact of Social Determinants of Health"	2018-present

Curriculum Development

Major Innovations

Graduate Medical Education

- I. 2019 – 2020
Development of a Quality Improvement Curriculum, Quality Improvement site-based rotation and objectives as well as mentoring model for the Internal Medicine Residency (with Byron Vaughn, MD, Reut Danieli, MD, and Michael Schnaus, MD.) Implementation is ongoing. Developed a system wide quality improvement training program and rotation for all our internal medicine residents at the University of Minnesota. All residents will have quality improvement and patient safety training during their intern year. During subsequent years they will each be assigned to one of our three training sites for a clinical quality rotation where they will receive additional training and mentoring in QI. They will all participate in a research of quality improvement project over the course of their rotation.
- II. 2017 – 2019
Four and Four Scheduling Design (with Amy Candy, MD). To help address burnout and well-being issues among trainees, we developed a modified four and four training model to limit the number of months residents are exposed to long training hours on inpatient rotations by eliminating back to back inpatient rotations for our residents. This was modified slightly in 2019 to allow for international rotations which may extend over several months as well as research blocks.
- III. Started 2012 – 2013
Development of Milestone-Based Evaluations for Internal Medicine and Internal Medicine-Pediatrics Residencies (with Briar Duffy, MD, Michael Aylward, MD, Colin Turner, MD, James Nixon, MD, and Reut Danieli, MD), implementation is ongoing. Milestone based evaluations are an innovative approach to

assessing resident progression to competence. Milestones are observable markers of development as a physician. I developed milestone evaluations for general internal medicine rotations and specialty consult rotations which were disseminated nationally and used by multiple other programs to develop their site specific evaluations and tools. Evaluations published online on Alliance for Academic Internal Medicine toolbox: <http://www.im.org/toolbox/NASResources/Pages/Milestone-basedEvaluationForms.aspx>

- IV. 2006-2016
Created a quality improvement curriculum based on IHI teachings for the University of Minnesota Internal Medicine Residency Program. Used the quality improvement curriculum as a framework to developing and completing over 40 projects involving more than 300 residents. These projects were implemented within Regions Hospital and HealthPartners Medical Group.
- V. 2014 – Present
Continuity clinic curriculum for Internal Medicine. Implementation is ongoing. Develop curricular content for the Internal Medicine Residency through a case-based format. Co-created a quality improvement curriculum and web-based toolbox for preceptors and residents to utilize for quality improvement projects within the continuity clinic sites.
- VI. 2015 - Present
Geriatrics course structure and curriculum for Internal Medicine for **all** residents. Implementation is ongoing. Developed course structure, learning objectives and curriculum for the geriatrics rotation including topics unique to the aging population. Residents have exposure to geriatrics clinic, home-based medicine, transitional care, assisted living, memory care and long-term care facilities.
- VII. 2008 - Present
Adult Health Care Clinic rotation curriculum for Internal Medicine. Implementation is ongoing. Developed course curriculum including RCA teaching, development of a mock RCA for our residents to participate in, quality improvement, food security, in addition to facilitating nutrition modules and teaching about food insecurity.
- VIII. 2014 - Present
Oversee the training of 90 internal medicine residents yearly, focusing on the educational experience at Regions Hospital and all outpatient HealthPartners Clinics. Ensure that all Regions resident rotations are compliant with the Accreditation Committee on Graduate Medical Education requirements. Provide intensive mentorship for 30 residents annually. Supervise Regions Chief Residents and work with residency core faculty to enact curricular and rotation changes. Review approximately 400 residency applications and participate in 20 residency interview days. In addition, during my time as APD, I have developed new rotations for the program at Regions including toxicology and geriatrics and have helped transition the CCC committee to a new model where all residents are reviewed biannually by the program to ensure that they are meeting their academic goals.
- IX. 2017 - Present
Founded and created the curriculum and longitudinal experiences for the REACH Longitudinal Integrated Clerkship at Regions Hospital with special emphasis on how social determinants of health impact the health of a community. Designed an outreach experience with Higher Ground Shelter where our students and staff physicians provide health advice and service for homeless clients both in the shelter as well as the medical respite unit at Higher Ground. Created an advocacy curriculum including working at the Capital with the Regions legislative team and participating in a book club which delves into a variety of societal issues such as mental health, racial disparities in our criminal justice system, drug addiction, poverty, and housing issues. Mentor 6 medical students in the program as they prepare for

residency to ensure they are meeting their professional goals and lead both a group quality improvement project as well as individual scholarly activities in QI, case presentations and research.

- X. 2000 - Present
Responsible for overseeing the outpatient experiences for the internal medicine residency program including providing oversight for all continuity clinic sites within the program ensuring they are all compliant with the Accreditation Committee on Graduate Medical Education requirements. Responsible for assigning all residents to their continuity clinics during residency and helping clinics troubleshoot issues that arise. Develop and maintain the continuity clinic curriculum and ensure all clinic preceptors and residents have access to educational materials. Helped develop and set up a web-based quality improvement curriculum for residents and clinic preceptors. Teach and mentor quality improvement projects within the HealthPartners system for internal medicine residents within their continuity clinic. During my time as core faculty I have helped develop new milestone evaluations for the program based on the core competencies, worked on transitioning our program to a modified 4 and 4 scheduling system.
- XI. 2000 - Present
Responsible for curricular development and leading journal club and patient care conference for this two-month outpatient rotation. Create multisite rotation schedule for 5-8 residents each two-month block and oversee rotation experiences for 30-40 residents/year.
- XII. 2015 – Present
Developed topics for lecture series and recruit faculty to teach. Create multisite rotation schedule for 24 residents/year including home-based medicine, geriatric clinic, assisted living, transitional care, and long-term care experiences. Oversee rotation experiences for 24 residents/year.
- XIII. 2015 - Present
Responsible for developing content and teaching faculty at HealthPartners how to teach various learners we encounter in the training environments we work in such as the hospital and clinic settings. This quarterly course is offered to physicians and advanced practice providers within the HealthPartners system and I am responsible for instruction on how to teach within the constraints of the competing forces of a typical day in the life of a practitioner.

Undergraduate Medical Education

Regions Equitable Affordable Community Health Program (REACH). 2017-present. Created a longitudinal integrated clerkship for 3rd year medical students with an emphasis on advocacy and how social determinants of health impact the health of our patients and the community as a whole. Integrated community experiences for the medical students including working with the HealthPartners government team at the Capital on issues such as homelessness and opiate addiction. Developed a partnership with Catholic Charities with both medical and service work at the Higher Ground Shelter in St. Paul. Developed a lecture series focusing on health disparities as well as a book club focused on various societal issues such as drug addiction, mental health, poverty and homelessness. Partnered with local hospitalists to bring a communication workshop to our medical students called Medical Improv where students learn communication tools aimed at improving relationships with patients and improving their overall satisfaction with medicine.

REACH workshop development. 2019-present. Creating workshops for our 3rd year LIC students to present on an ongoing basis at Higher Ground as a way to educate this vulnerable population on important topics. Current workshops in design include “Diabetes Care on the Streets”, “How to Access Healthcare”, and “Basic Footcare and How to Avoid Frostbite”.

Becoming a Doctor workshop proposal, faculty sponsor, “Medicine on the Streets”. 2020. Faculty sponsor for our REACH students in creating a workshop for educating their peer medical students as to how social determinants of health impact the delivery of healthcare within our community.

Faculty Development Activities regarding teaching

Simplifying Precepting, 2018-present. Developed a half day workshop for new, early and mid-career preceptors aimed at improving their teaching skills and improving their overall satisfaction with teaching and learners. My responsibility for this course is teaching preceptors how to teach within the confines of competing factors in their day. This course is run quarterly at HealthPartners and open to all faculty within the organization who teach or are interested in having learners in the future. This is a multi-disciplinary workshop.

Continuing Medical Education

Updates in Primary Care 2017. Created and presented a talk, “The 10 Best Articles of 2017 Which Every Primary Care Physician Should Know About” highlighting important studies of 2017 and their impact on the care we deliver.

Residents Supervised

As an Associate Program Director of the Internal Medicine Residency Program, I directly mentor 30 Internal Medicine Residents yearly. For these residents, I provide career counseling, guidance for developing scholarly projects in QI or research and help with areas residents are struggling in such as improving test taking abilities or clinical skills. Average time commitment 5 hours per year per resident. 2014-present

CLINICAL SERVICE

Clinical Leadership Accomplishments

Chief of Staff, Regions Hospital 2008-2009. During tenure brought hospital up on the Electronic Health Record and helped plan and open the South Tower Expansion, converting the majority of the hospital to private rooms.

Regional Assistant Medical Director, Specialty Care, 2005-2014. Physician lead for the 3 major specialty care centers within the HealthPartners network: North Memorial, Riverside, and the Phalen Specialty Centers, 401 and 435. Leader in planning and opening the largest HealthPartners Specialty Centers, 401 and 435 Phalen Blvd.

Chief of Professional Services, HealthPartners Specialty Center 2005-2008.

Division Head, Primary Care for Regions Hospital, 2000-2005. Leader and representative for Primary Care at Regions Hospital.

Chief of Professional Services, Midway Clinic, 2000-2005.

Quality Improvement Projects

Defining the True Costs of Teaching, 2018-2019. Asked by Regions Leadership to explore the difference in hospital costs dependent upon primary team assignment on Internal Medicine. Analysis revealed a statistically shorter length of stay on teaching services as well as lower cost especially in sicker patients. There was noted to be no statistical difference overall in patient satisfaction or complications between teaching and non-teaching services.

Clinical Service Responsibilities

Hospitalist Service Regions Hospital: 10 weeks attending per year.	1997-present
University Avenue Clinic: 3 staff clinics per week and 1 continuity clinic per week	1997-present
